Mega Project Release

Releasing in Malaysia & Singapore in Summer 2023

Kuala Lumpur, Malaysia 15 July 2023: JstMStudio today announced the official release of the Happy Virtual Reality Valley in Malaysia, Singapore, Thailand, Philippines, Indonesia, Taiwan, Japan, South Korea, Vietnam, India, United States on 1 January 2024, meanwhile we will be releasing Happy Virtual Reality Valley in Canada, United Kingdom, Australia, Algeria, Morocco, United Arab Emirates, Qatar, Brazil, Argentina, Egypt, New Zealand, Barbados, Hong Kong (China), Macao (China) and Bermuda in 2 February 2024.

Happy Virtual Reality Valley is a new set of products and services. Happy Virtual Reality Valley is a multi-industry project, with a book series, app and much more and offers a new way for all online users to use the Internet safely and is privacy-friendly with many awesome features and contents.

After 10 months of development at the time of writing, Happy Virtual Reality Valley will include a new huge website with everything you need, a book series, documentation program, course program, community forums for discussions, a place for everyone to find information and start their own sites, a place to discover servers across Discord, Guilded and Revolt.chat, multiple awesome Discord bots and multiple awesome PJ Masks-themes projects.

The main project in Happy Virtual Reality Valley is JstMStudio Sitesm which is an upcoming massive website, with over 30+ features combined for everyone to use for free with no paywall, privacy-preserved and all contents are appropriate for all ages with strict moderation on our behalf.

Happy Virtual Reality Valley was built to unbalance the global market, into a market that listens to user opinion more than corporate greed on money in today's world, where everyone feels safe, when not being silenced. A place where everything is provided for **FREE**, and is available to everyone around the

world without being restricted to your region only, and everything is provided in a single place with a single account.

“The Internet is a wild and dangerous place for all sorts of people, and with bad privacy practices, it is getting worse. We shouldn’t keep it that way so we bring you to the privacy-friendly and safe products of JstMStudio,” says Jst Tan, CEO, JstMStudio. “In the era of the Internet nowadays, we should keep safe and value our privacy to the right person. ”

Happy Virtual Reality Valley will be available starting around **January 2023** in **Malaysia, Singapore and more countries**. For more information on the project, please contact us directly at support@jstmstudio.tk for support and please contact press@jstmstudio.tk for press inquiries, or check out our newsletter here: [Our newsletter link](#) .
