Mega Project Release

Releasing in Malaysia & Singapore in Summer 2023

Kuala Lumpur, Malaysia 24 April 2023: JstMStudio today announced the official release of the JstMStudio Mega Project in Malaysia in Summer 2023. JstMStudio Mega Project is a new set of products and services. JstMStudio Mega Project is a multi-industry project, with a book series, app and much more and offers a new way for all online users to use the Internet safely and is privacy-friendly with many awesome features and contents.

After 6 months of development at the time of writing, JstMStudio Mega Project will include 4 new book series, a new blog about travelling, a new Discord bot, a new code license, a new platform and super app, documentation and a new course program. JstMStudio Mega Project was built to unbalance the global market, into a market that listens to user opinion more than corporate greed on money in today's world.

"The Internet is a wild and dangerous place for all sorts of people, and with bad privacy practices. We shouldn't keep it that way so we bring you to the privacy-friendly and safe products of JstMStudio," says Jst Tan, CEO, JstMStudio. "In the era of the Internet nowadays, we should keep safe and value our privacy to the right person. "

JstMStudio Mega Project will be available starting around **Summer 2023** in **Malaysia** and **Singapore**. For more information on JstMStudio Mega Project, please contact us directly at jstmstudio@gmail.com .
